

DVN Roof Fans

Centrifugal heavy duty roof fan solution

- Up to 120°C medium temperature, continuous operation
- DVN is the non-insulated version
- DVNI is the insulated version with acoustic and thermal insulation 50 mm
- Extensive range of accessories
- Available with AC and EC motors for 50 and 60Hz

[Find more details in our online catalogue](#)

Flexibility

The DVN/DVNI fans are intended to use for **extract** air with **vertical discharge**.

DVN/DVNI are the **smart choice** when **requirements** are **higher than average**, in applications such as extraction from kitchens, process air systems and industrial ovens. They are suitable for continuous air flow temperatures up to 120°C.

The fans are designed to handle high volumes at medium pressure without generating excessive noise.

Reliability

The casing made out of **seawater resistant aluminium** with an inside **galvanised steel frame** is hard-wearing.

The combination of casing and motor construction ensures to minimize the need for maintenance of the fans and allows long **continuous operation**.

Performance

High performance aluminium impeller together with **high efficient** motors are designed to ensure high-level performance to **minimize power consumption** and **maximize efficiency**.

Accessories

DVN/DVNI fans can be selected together with variety types of **accessories** as roof sockets, tilting devices, dampers, etc.

Features

Construction

The **Casing** is made from **sea water resistant aluminium**. **Base frame** manufactured from **galvanised steel** with integrated inlet cone. Integrated bird guard manufactured from powder coated, galvanised steel.

DVNI is with **50 mm mineral wool acoustic and thermal insulation**.

Impeller

The DVN/DVNI fans use **radial** impeller with **backward curved blades**. These are made out of aluminum, dynamically **balanced** and paired with corresponding **IEC motor** with efficiency **IE3 or EC motor**.

Motor

Depending on the type, DVN/DVNI fans are equipped with **AC** or **EC** external rotor motors. Motors are suitable for **50Hz** and **60Hz**.

Motor protection

Depending on the type, **AC** motors have an **integrated** thermal protection with manual (electrical) reset, prewired integral **thermocontact TK** or **thermistor PTC** with leads to a **motor protection device**.

Fans with **EC** motors have an **integrated** electronic **thermal protection** including **locked-rotor protection** and **soft-start**.

Control

EC motors with **built-in potentiometer** to adjust working point can be also controlled by external **signal 0-10V**.

EC motors, depending on the type are also equipped with **ModBus** communication or **alarm signal**.

AC motors can be controlled by **5-step, stepless** speed regulator, **D/Y** switch or **frequency converter**.

Installation

The DVN/DVNI are for **outside installation**.

Technical parameters

Nominal data

Voltage (nominal)	400	V
Frequency	50	Hz
Phases	3~	
Input power	161	W
Input power kW	0.161	kW
Input current	0.6	A
Impeller speed	972	rpm
Air flow	max 2,127	m³/h
Temperature of transported air	max 120	°C
Max temperature of transported air, when speed controlled	120	°C

Protection/Classification

Enclosure class, motor	IP55
Insulation class	F

Wiring

- 1 3 x 230V Delta Connection
- 2 3 x 400V Star connection
- 3 PTC / TK
- Changing of direction of rotation by interchanging of two phases

Accessories

- ASF 355-500 inlet flange DVS (9569)
- ASS 355-500 flex. con. DVS (9576)
- Frequency converter FRQ5-4A (36229)
- Frequency converter FRQS-4A (36231)
- REV-9POL/12-7,5kW R/Y (33981)
- TDA DV 355/400 Adapter (301393)
- SDS 355/400 slant. roof socket (3785)
- FDS 355/400 flat roof socket (9550)
- FTG 355/400 Tilting device (30508)
- VKS 355-500 Back draft damper (9544)
- REV-9POL/12-7,5kW B/G (281743)
- ASK 355/400 inflow box SSD (300905)
- Frequency converter FRQ-4A (36227)
- Frequency converter FRQ5S-4A (36233)
- REV-5POL/07-7,5kW R/Y (33980)
- SSD 355/400 socket silencer (9562)
- U-EK230E Motor protection (30199)
- SSS 355 slant. socket silencer (30077)
- FDS-L 355/400 flat roof socket (95281)
- VKM 355-500 Back draft damper (9556)
- REV-5POL/07-7,5kW B/G (281742)
